

DECON™ SCRUBBER

THE ODOROX® DECON™ SCRUBBER IS THE RIGHT CHOICE FOR REMOVAL AND DECONTAMINATION OF LARGE VOLUMES OF PARTICULATE AND POLLUTANTS FROM THE AIR.

The Odorox® Decon™ Scrubber is finely tuned to eliminate odors and particulates associated with bacterial, viral and mold contamination. The Odorox® Decon™ Scrubber is designed for removal of large amounts of smoke, ash, animal dander and pollen. The Decon™ Scrubber will also remove odors caused by incinerated/burnt plastics, organic matter, and chemicals. This unit is wheeled for mobility and works well in medium to large commercial facilities like hospitals, clinics, schools, offices, prisons, manufacturing & agricultural facilities, and is ideal for disaster restoration firms.

SPECIFICATIONS

Dimensions	28" x 27" x 45" (With Wheels & Handles) (711mm x 686mm x 1143mm)
Weight	132lbs, 60kg
Power	120V @ 12 Amps
Control	Variable Speed / Selector Switches
Meter	1/10 quartz hour meter
Mobility	Wheeled
Finish	Hammertone Blue powder coat
Noise Level	<60 dBA
Number of Optics	3
Air inlet / Outlet	Louvered panel
Fans & Rating	One 1690 CFM
Filters	Washable prefilters (2) 21.875" x 15.875" x 2" High Cap (MERV8) (1) 21.125" x 21.875" x 4" High Cap (MERV13) Optional HEPA 4" Block
Certification	ETL Canada/US - CSA & UL Standards Meet or Exceed EPA - OSHA Standard & Guidelines Residual O ₃ /Non-accumulative
